

# AIR CONDITIONING PRODUCT RANGE - 2018

Everything for the HVAC Market

Version 1—2018

# VRF & Split Systems

Everything from VRF to Split systems is available. From the latest Wifi enabled systems, to the most aesthetically beautiful, ultra quiet, and best in industry power consumption.

Extremely low maintenance, with ultra high reliability ensuring the very best of comfort, no hot or cold spots, which can be stand alone or fully integrated

into an energy management system.

Perfect for the home or for any business. Fast to install, and easy to commission ensuring your client has the benefit of their A/C up and running quickly.

Installation can also be arranged by our approved sub contractors, supervised and signed off by us.

**Example of a VRF system installed in a small deli / restaurant.**
